About Me

Aspiring Full-Stack Developer pursuing M.Sc. Software Systems with hands-on experience in web, mobile, and AI-based applications. Passionate about building scalable, user-focused solutions using modern frameworks and cloud technologies.

Skills

TECHNICAL SKILLS

- Build → Web & Mobile Applications
- Integrate → Frontend • Backend • Database
- Connect → APIs & Cloud Services
- Process → Logical Workflows & Basic Analysis
- Aspiring DevOps & Backend Engineer

Tech: → Python • Java • C/C++ • JavaScript • Firebase • PHP • MySQL • MERN Stack • Web Stack • Git • Flutter • React Native/JS • AWS • Ollama

Education

- Kongu Engineering College, Perundurai** 2023 - Present
M.Sc. Software Systems (Integrated)
CGPA: 7.82
- Bharathi Vidya Bhavan Matriculation Higher Secondary School, Thindal** 2022-2023
Higher Secondary (Maths & Computer Science)
Percentage: 65.16%
- Green Garden Matriculation Higher Secondary School, Perundurai RS** 2020-2021
Higher Secondary

Projects

- AgriTrack**
Smart farming management system using structured data and logical analysis for optimized crop planning and decision-making.
- FindinFront (Ongoing)**
Assistive mobile app using real-time object detection with voice and vibration feedback for visually impaired users.
- Attendo**
Mobile-based attendance tracking system for managing employee/student presence with real-time data handling.
- Custom AI Agent (Recently done)**
Developed a dynamic AI agent system that generates and executes task-specific agents from simple user prompts using automation logic.
- API Monitoring System**
Built a real-time API monitoring dashboard to track uptime, latency, and system health using automated checks and alerts.
- Animal Poaching Detection System**
Vision-based system using computer vision techniques to detect illegal hunting activities in wildlife zones.
- EUREKA - Semantic Search**
Semantic mapping system converting free-text or voice job descriptions into NCO-2015 codes using NLP, vector search, and API integration.

Areas of Interest

- Application & System Design
- Backend Integration
- API & Cloud Systems
- Vision-Based Applications
- Data Processing Logic
- AI agent Development

Language

- Tamil – Native
- English – Fluent
